Introduction

Washington State public high schools that serve students who are attempting high school credit are required to use the Washington State Standardized High School Transcript ([RCW 28A.230.125](#)). This special edition of the transcript user guide provides the specifications for the standardized transcript for students who were enrolled in school year 2020-21 and may be affected by the State Board of Education Graduation Requirement Emergency Waiver (GREW) of certain graduation requirements as described in [Chapter 180-11 WAC](#).

This guide is only intended for public schools that fall under the supervision of The Office of Superintendent of Public Instruction. Home schools and private schools are not required to follow the same transcript regulations.

This special edition only includes changes to student transcripts due to the [GREW emergency rules adopted in May 2021 and the State Board of Education emergency rules passed in May of 2020](#). The changes contained in this special edition need to be considered in conjunction with other applicable [Transcript User Guides](#).

Conventions of this guide:

Items found in parentheses () are implied information. Explicit headings or descriptors for the data element that is enclosed in parentheses are thought to be unnecessary.

In formatting, the use of ellipsis in describing a data element's format indicates that the data type is of variable length from 1 to the maximum length of field.

For example:

X... would be the format for SCHOOL NAME where the school's name could be of one or more characters.

Description: The student's academic history for all high school level courses attempted or waived as allowed under the State Board of Education Emergency Rules as provided in [WAC 180-111-010](#). Courses from which students have withdrawn must be reported as well as completed courses.

Business Rules: This sub-section is grouped by reporting period, oldest reporting period first, where reporting period is reported as the last month and year of the reporting period. For example, if a school is using semesters for their reporting period there would be two groups of records per year for the regular school year (this would not include a summer school reporting period). Each group would have an associated month and year for each semester with the grade level the student was assigned at the time of the reporting period. Each group would be followed by the course information pertinent to that group's records.

Students granted a waiver for a course, as allowed under the Spring 2020 State Board of Education Emergency Rules, must have the specific waived course(s) identified in their academic history with a grade of 'V'.
